Welcome!

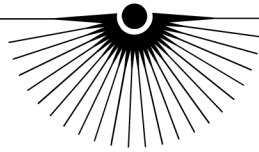

I believe through self-empowerment, there is no end to what students can achieve in the voice studio, as well as accomplish in the world.

I intend to create a community of unique, independent and creative students who can grow their passion for music, and lead their musical life with boldness and unashamed joy. I make sure my students are able to explore the music around them with no preconceived notions, and no added limitations.

Through this community, I will be able to develop future long term curriculum and develop my own in person artistic voice studio.

I want all of my students to use music as a catalyst to inspire their future career and life goals.
